Welcome

Since 1867, St. Joseph's Regional Medical Center has cared for the health of you, your loved ones, and the community. In 1982, the St. Joseph's Regional Medical Center Foundation was established to enable you to make contributions to support St. Joseph's Regional Medical Center.

When you come to St. Joseph's, you enter a medical center with advanced diagnostic and treatment technology, physicians, Magnet Award winning nurses and clinicians at the top of their profession, and a reputation for excellence that has spanned more than 140 years.

You'll find that the medical excellence is accompanied by something even more precious: a long-standing tradition of love, care, trust, and compassion.

St. Joseph's is an academic medical center providing tertiary care to the residents of Northern New Jersey. It is Passaic County's trauma center and is renowned for exceptional cardiac care, cancer care, and St. Joseph's Children's Hospital.

St. Joseph's Regional Medical Center Foundation is a 501(c)(3) charitable foundation whose sole mission is to create awareness and generate funds for St. Joseph's Regional Medical Center and St. Joseph's Children's Hospital.

Gifts made to the Medical Center and Children's Hospital through the Foundation enable St. Joseph's to carry out its Vision and help to meet the needs of the ever-changing health care environment.

Our staff is happy to work with you to make your contribution as convenient as possible. If you are interested in supporting the activities of St. Joseph's Regional Medical Center and/or St. Joseph's Children's Hospital, please contact:
