Graduates of St. Joseph's residency program have always been accepted into the most competitive fellowships in the United States.

Research

There is a program of clinical and basic research and some of the activities and products of these endeavors are presented in scientific journals and meetings. Another area of research is the involvement with industry sponsored clinical trials.

St. Joseph's faculty promotes the use of evidence-based medicine in clinical discussions, rounds and conferences. Residents and faculty participate in journal clubs, which emphasize a critical appraisal of the medical literature. An understanding of the fundamentals of clinical study design and evaluation of research findings are taught in the annual Research Methods course, conducted by the Director of Resident Research. Prior to graduation each resident will complete an activity such as original research or a comprehensive case report. Many residents participate in the annual Seton Hall University School of Health & Medical Science Research Colloquium.

Fellowship Programs Offered at St. Joseph's

Cardiology Emergency-Administrative Emergency - EMS & Disaster Gastroenterology Hematology/Oncology Nephrology Pulmonary

Residents have been accepted into the following subspecialty Fellowships:

The Emergency Department at St. Joseph's Healthcare System has recently launched an Administrative Fellowship program.

Affiliated: Montclair State University; Fellows will complete a significant number of credits toward a MPH, MBA with Montclair State University.

Positions Available: Two; beginning July 1, 2011 (start date is negotiable); one-year and two-year programs available

Deadline for Application: February 1, 2010

During the Fellowship Program, participants will work directly with the Chairman of Emergency Services while also interfacing with St. Joseph's Healthcare System's Administration, Board of Trustees and Emergency Department Administration.

Fellows will work part-time in the Emergency Department clinically, participate in research projects and work with committees at St. Joseph's Regional Medical Center. Additionally, Fellows will have the exciting opportunity to be highly involved in the construction and design of a new Emergency Department as St. Joseph's Regional Medical Center undergoes significant changes during the $250 million expansion and renovation investment project, scheduled for completion in 2012.

Additional Information

- 4 weeks paid vacation
- Paid tuition to ACEP

- On-site parking
- PGY-5 pay scale
- Child care services
- Health Benefits

Faculty

Mark Rosenberg, DO, Chairman, Emergency Medicine

David Adinaro, MD, Chief, Adult Emergency Department

David Kroning, MD, Chief, Pediatric Emergency Department

The Emergency Department at St. Joseph's Healthcare System has recently launched an EMS and Disaster Medicine Fellowship program.

Positions Available: Two; beginning July 1, 2010 (start date is negotiable); one-year programs

Deadline for Application: February 1, 2010

The goal of this Fellowship is to guide physicians in leadership development in the fields of operations, communications, training, research and administration in a variety of settings. The Fellow will be prepared to lead their institutions and/or EMS services in all EMS activity and disaster planning.

Most EMS and Disaster Medicine Fellows graduate to become medical directors of EMS systems, and are integral in disaster planning in their hospitals and communities. This fellowship also prepares Emergency Medicine Physicians for a career in academic medicine at teaching hospitals, research, administration, and directorship at many levels, not limited to EMS systems.

Fellowship Specifics

- Six clinical 12-hour shifts in ED per month as a teaching attending, and complete various rotations on days off.
- Participate in the Physician Response Program.
- Complete at least one research project and submit the project to a local or national EM conference.
- Attend various EMS and Disaster Preparedness conferences including but not limited to CONTOMS, NAEMSP, AMPA, APF (disaster course in Israel)

Fellowship Rotation Schedule

- ALS - SJRMC paramedics
- BLS - Paterson Fire Department
- Physician Response - Respond to ALS calls throughout the shift, respond when NJ EMS

task Force dispatches the vehicle.

- Aeromedicine - Air One rotation, Newton, NJ
- Saint Vincent's Hospital ALS – NYC based ALS Rotation
- Medical Direction – Review, redesign protocols, and ALS box-calls, quality review
- Communications – MICOM ALS dispatch center
- Administrative - New Jersey State Office of Emergency Medical Services
- Disaster Medicine - The fellow will become a member of NJ EMS Task Force. AFP (Israeli disaster course) DMAT/NDMS
- Research - All research projects will be considered for publication

Additional Information

- 4 Weeks paid vacation
- Child care services
- On-site parking
- Total hours vary between 40-60 hours/week
- Compensation will be at the current PGY5 level for salary and benefits package
