REVIEW / REVISION DATE
POLICY #

POLICY

St. Joseph's Health ("SJH"), operating St. Joseph's University Medical Center and St. Joseph's Wayne Medical Center is committed to providing emergency and other medically necessary care to people who have healthcare needs regardless of whether they are uninsured, underinsured, ineligible for a government program, or otherwise unable to pay. Consistent with its mission to deliver compassionate, high quality, affordable healthcare services and to advocate for those who are poor and underserved, while being financially responsible, SJH strives to ensure that the people who need health care services receive those services, regardless of their financial situation.

For the purpose of this policy, the terms below are defined as follows:

- Amounts Generally Billed or AGB:** The "amounts generally billed" refers to the amount charged for care SJHS provides to any individual who is eligible for assistance under this FAP, which is limited to (i) in the case of emergency or other medically necessary care, not more than the amounts generally billed to individuals who have insurance covering such care, and (ii) in the case of all other medical care covered under this FAP, less than SJH' Gross Charges for such care, all as determined in accordance with Section 501(r) of the Internal Revenue Code and the Treasury Regulations thereunder.
- AGB Percentage** means the percentage of Gross Charges that SJHS uses under Section 501(r) of the Internal Revenue Code and the Treasury Regulations thereunder to determine the AGB for any emergency or other medically necessary care it provides to an individual who is eligible for assistance under this FAP.
- Gross Charges** means SJH' full, established price for medical care that SJH consistently and uniformly charges patients before applying any contractual allowances, discounts, or deductions.

- **SJH Financial Assistance Policy or FAP:** Emergency and other medically necessary healthcare services that have been or will be provided under the New Jersey Hospital Care Payment Assistance Program, or free or discounted care, based on the following established criteria:
 - **Charity Care:** Free or reduced charge care for patients eligible under the New Jersey Hospital Care Payment Assistance Program.
 - **Free or Presumptive Eligibility Financial Assistance:** In certain circumstances a patient may have a need for urgent medical services and appear eligible for Charity Care discounts, but there is no financial assistance form on file due to a lack of supporting documentation. Due to the inherent nature of the presumptive circumstances, services may be provided and the patient balance may be discounted by 100%.
 - **Self Pay Fee Schedule:** This amount reflects the “Self Pay” rates for emergency and other medically necessary healthcare services for individuals not eligible for Charity Care, and includes the provisions of NJ Billing Limits Discounted Care. The Self Pay Fee Schedule is attached as Appendix B.
 - **Medically Necessary:** Any procedure reasonably determined to prevent, diagnose, correct, cure, alleviate, or avert the worsening of conditions that endanger life, cause suffering or pain, result in illness or infirmity, threaten to cause or aggravate a handicap, or cause physical deformity or malfunction, if there is no other equally effective, more conservative or less costly course of treatment available.

It is intended that this FAP comply with Section 501(r) of the Internal Revenue Code and the Treasury Regulations thereunder. SJH reserves the right to amend this FAP at any time.

ELIGIBILITY CRITERIA

Eligibility for this SJH Financial Assistance Policy shall be based on an individualized determination of financial need, and shall not take into account age, gender, race, social or immigrant status, sexual orientation or religious affiliation.

PARTICIPATING SJHS FINANCIAL ASSISTANCE POLICY PROVIDERS

This SJHS Financial Assistance Policy applies to emergency and other medically necessary care provided at SJH affiliated hospitals, by faculty physicians, and identified independent contractors. A detailed listing of participating providers, and providers not covered by this FAP, can be found on the hospital’s web site at www.StJosephsHealth.org.

HOSPITAL PROCEDURES – HOW TO APPLY FOR FINANCIAL ASSISTANCE

1. Upon registration for hospital service, and after all Emergency Medical Treatment and Active Labor Act (“EMTALA”, found at Section 1867(a) of the Social Security Act) requirements are met, patients will be advised of their estimated financial responsibility, including an estimate of hospital fees, copay, co-insurance, and deductible prior to service delivery, as appropriate.
2. If a patient does not have insurance, or is without Federal, State or private insurance, he or she may request a financial assistance appointment from registration staff, or by calling 844-770-4877.

3. Registration staff will offer a copy of the Plain Language Summary (“PLS”) of this FAP and a Financial Assistance Affidavit (Appendix C) to be completed in order to determine eligibility for the Self Pay or NJ Billing limits fee schedules based on the patient’s self-reported income level.
4. Patients whose self-reported income falls below 300% of the applicable Federal Poverty Guidelines will be directed to the Financial Counseling department for income verification and determination of eligibility for Medicaid, Charity Care, or Self Pay discount programs.
 - a. Determination of eligibility for financial assistance will be made in accordance with N.J.A.C. 10:52-11, -12 and -13 (Charity Care) and will comply with SJH’ application, approval, billing and processing of New Jersey Hospital Care Payment Assistance Program or Uninsured Patient Policy, as appropriate.
 - b. Upon receipt of all required documentation (as noted in Appendix B), the financial counselor will make a determination of eligibility for Medicaid. If the counselor deems the applicant eligible, the counselor will assist in the completion of the Medicaid application which is then forwarded to the County Medicaid Counselor for final approval and applicant enrollment.
 - c. If an applicant is not deemed eligible for Medicaid, the financial counselor will begin enrollment for a Charity Care subsidy. Applications shall be processed promptly and the applicant informed of approval status, when possible on the same day as the application, but not later than 10 days after the application date.
 - d. If an applicant is not deemed eligible for a Charity Care subsidy, in whole or in part, the applicant will be provided a written and dated statement of the reasons for the denial. The applicant will then be subject to the Self Pay Fee Schedule for emergency and other medically necessary healthcare services. In addition, this statement shall state that the applicant may reapply for the Medicaid or Charity Care.
 - e. An applicant who believes his or her financial circumstances have changed so as to make him or her eligible for assistance can request a review of income eligibility at any time for future discounted or free hospital services.
 - f. Applicant questions or to request a copy of the FAP Application can be directed to the Charity Care Customer Service Center at 844-770-4877.

CHARITY CARE ELIGIBILITY GUIDELINES

Consistent with the New Jersey Hospital Care Payment Assistance Program, patients whose family income is at or below 300% of the Federal Poverty Guidelines are eligible for the New Jersey Hospital Care Assistance Payment Program. Hospital care payment assistance is available to New Jersey residents who:

1. Have no health coverage or have coverage that pays only for part of the bill; **and**
2. Are ineligible for any private or governmental sponsored coverage (such as Medicaid); **and**

3. Meet **both** the income and assets eligibility criteria listed below.

Hospital assistance is also available to non-New Jersey residents for Emergency situations requiring immediate medical care. Non-residents will be screened according to the Charity Care Guidelines listed below and can be approved on a per case basis for services provided in the Emergency Department or when admitted into the Emergency Department. Charity Care does not cover the physicians' fees.

INCOME CRITERIA

Income as a Percentage of U.S. Department of Health & Human Services Poverty Income Guidelines	Percentage of Medicaid Paid by Patient
less than or equal to 200% of the Federal Poverty Guidelines	0%
greater than 200% of the Federal Poverty Limits but less than or equal to 225% of the Federal Poverty Guidelines	20%
greater than 225% of the Federal Poverty Guidelines but less than or equal to 250% of the Federal Poverty Guidelines	40%
greater than 250% of the Federal Poverty Guidelines but less than or equal to 275% of the Federal Poverty Guidelines	60%
greater than 275% of the Federal Poverty Guidelines but less than or equal to 300% of the Federal Poverty Guidelines	80%
greater than 300% of the Federal Poverty Guidelines	100%

If patients on the 20% to 80% sliding fee scale are responsible for qualified out-of-pocket paid medical expenses in excess of 30% of their gross annual income (i.e. bills unpaid by other parties), then the amount in excess of 30% is considered hospital care payment assistance.

ASSET CRITERIA

Single Applicant	Liquid assets (cash, bank accounts, IRAs etc.) cannot exceed \$7,500
Family Applicant	Liquid assets (cash, bank accounts, IRAs etc.) cannot exceed \$15,000

AMOUNTS GENERALLY BILLED (AGB) DISCOUNTED CARE GUIDELINE

Consistent with Internal Revenue Code Section 501(r) of the Internal Revenue Code, patients who have no health insurance and are not eligible for Medicaid or Charity Care may request the AGB Discount shown on the Self Pay Fee Schedule attached as Appendix B for emergency and other medically necessary care. In the case of all other medical care covered under this FAP, SJHS will limit the amounts charged to less than the Gross Charges for such care. Patients must complete the Self Pay Qualification Attestation Form and certify that they do not have health insurance coverage in any form.

The patient will be registered using the insurance plan code Self Pay FAP. Use of this insurance plan code will only apply to the current registration. If the patient comes in again, he/she will be required to complete a new Self Pay Financial Assistance Affidavit.

Patients eligible for the Self Pay Discount will be *charged no more* than the hospital’s AGB Percentage as applied to SJHS’ Gross Charges for the medical care. Appendix B shows the current AGB Percentages.

SJH limits the amount charged for emergency and other medically necessary care provided to patients who are eligible for financial assistance under this policy to not more than gross charges for the care multiplied by the AGB percentage. The AGB Percentage is determined using a “look-back method.” Under this method, SJHS determines the AGB for any emergency or other medically necessary care it provides to FAP-eligible individuals by multiplying SJH’s Gross Charges for the care by one or more AGB Percentages. SJH will calculate its AGB Percentage(s) at least annually by dividing the sum of the amounts of all its claims for emergency and other medically necessary care that have been allowed by Medicare fee-for-service and all private health insurers that pay claims to SJHS during a prior 12-month period by the sum of the associated Gross Charges for those claims. Whether a claim is used in calculating SJHS’s AGB Percentage(s) depends on whether the claim was allowed by a health insurer during the 12-month period used in the calculation, no on whether the care resulting in the claim was provided during that 12-month period. Claims are organized by type of encounter; Hospital Inpatient, Hospital Outpatient, Hospital Emergency, and Physician Services. An AGB Percentage (and a corresponding AGB Discount) will be calculated for each type of claim encounter. See Appendix B.

For example, where total inpatient charges equal \$1,000 and total inpatient reimbursements equal \$600. The resulting AGB percentage is 60% of total encounter charges. Consistent with the New Jersey Billing Limits Discounted Care Guidelines, an individual will not be billed more than 115% of the Medicare rate when the AGB calculation results in an amount which exceeds 115% of the Medicare rate. In instances when the AGB calculation results in an amount which is lower than the

115% of the Medicare rate the individual will be billed the AGB calculated rate, not the 115% of the Medicare rate.

The AGB Percentage is calculated, at a minimum annually, with implementation not more than 120 days after the end of the year.

PUBLIC ACCESS TO AGB FEE SCHEDULE

As each patient encounter may have a unique set of services, individuals may access a table of common inpatient, emergency, outpatient, and physician services on the hospital website: <https://StJosephsHealth.org/> or by contacting patient financial services representative at 973-754-2892. All quoted fees are subject to a final review of services actually used as documented by the hospital and reflected in the patient's Universal Bill (UB) or Professional Services Bill (CMS- 1500).

FREE OR PRESUMPTIVE ELIGIBILITY ASSISTANCE

Free or Presumptive Eligibility Financial Assistance may be determined on a case-by-case basis based on individual life circumstances that may include, but are not limited to:

- Homeless or received care from a homeless clinic;
- Participation in Women, Infants and Children programs ("WIC");
- Food stamp or subsidized school lunch eligibility;
- Eligibility for other state or local assistance programs that are unfunded (e.g., Medicaid spend-down);
- Low income/subsidized housing is provided as a valid address;
- Patient is deceased with no known estate
- Certain circumstances related to catastrophic illness

BILLING AND FOLLOW-UP PROCEDURES

Following the delivery of services, Patient Financial Services will send patients a bill for services and a copy of a Plain Language Summary ("PLS") of the FAP advising patients of the Financial Assistance and Self Pay Discount options. If a valid insurance carrier has been identified, the patient bill will be sent to the carrier for payment. Patients calling Patient Financial Services about an account with an eligible date of service will be advised of this FAP and asked he/she wishes to be screened.

- If the patient has a Self Pay Financial Assistance Affidavit (Appendix C), which accompanied the billing statement, the Patient Financial Services representative will ask the patient to complete and return it to us via fax or mail.

Fax:

In person, or mail to:

St. Joseph's Health

Patient Financial Services Department
703 Main Street
Paterson, NJ 07503

- If the patient does have a Self Pay Financial Assistance Affidavit, the patient will be asked to provide the required information over the phone. If the patient agrees, the Patient Financial Services representative will complete and sign the affidavit on the patient's behalf making a note of the date, time, and person giving the information.
- In either case, the Self Pay Financial Assistance Affidavit representative will re-verify the account with the appropriate discount code. If the patient prefers to complete the Self Pay Financial Assistance Affidavit, the form will be mailed to the address on file. The insurance plan code will not be changed and no adjustment to the account balance will be made until the completed affidavit is returned and the patient deemed eligible.
- Eligible patients will be referred to Financial Counselors for Charity Care or low income insurance verification.

All completed affidavits will be scanned into document imaging regardless of where the form is completed.

The patient's account will be automatically allowed to reflect the appropriate subsidy program fee schedule.

Credit and Collection Procedures

It is the policy of SJHS that patients meet their financial obligation, ensuring that quality patient care continues to be rendered to all current and future patients. In general, resolution of outstanding collections for patients with insurance (Medicaid, Medicare, Workman's Compensation and managed care) will be initially pursued by the respective carriers. Once all reasonable efforts have been exhausted, patients will be reclassified as self-pay and collection procedures will prevail. After 30 days, a patient collection status notice advising the patient of their outstanding obligation, along with a copy of the PLS will be sent to the patient. Inclusive of this notice will be the actions to be taken by SJH in the event of nonpayment and the entire outstanding obligation will be referred to an outside collection agency

Patients classified in the self-pay financial class may be considered eligible for a payment plan referral.

Accounts greater than 120 days from the date of the first post-discharge billing statement provided to the patient will be transferred to Bad Debt and referred to a collection agency for account follow up. Exceptions to this process are permissible where individual situations warrant and approval is obtained by the Director of Patient Financial Services for hospital

accounts, or the Director of Physician Services for the physician's bill. Management of Collection Agency services will follow the Bad Debt and Collection Agency Policy.

On an individual basis, where extraordinary collections actions ("ECAs") are deemed necessary, St. Joseph's Health will take all legal remedies to collect its debt. Approval must be obtained in advance from the Chief Financial Officer and written notice issued to the patient/guarantor.

- If the individual submits an application after the referral or sale of the debt but prior to the end of the application period, and the individual is determined to be FAP eligible, SJHS will request the third party to suspend the ECAs to obtain payment for the care in a timely manner. Adherence to procedures specified in this agreement ensures that the individual does not pay and has no obligation to pay the third party, or St. Joseph's more than he or she is required to pay for the care as a FAP-eligible individual; and
- If applicable, and if the third party has the authority to do so, take all reasonable available measures to reverse any ECA, other than the sale of a debt, taken against the FAP eligible individual.
- If the third party refers or sells the debt to yet another party during the Application period, the third party will obtain a written agreement from the new party including all of the elements described above.

PAYMENT PLAN POLICIES

Patients who contact SJH to request a payment plan will be directed to the Patient Financial Services Counselor for hospital charges, and Physician Billing Department for physician's charges to arrange a plan for up to 12 months.

For patients who are cooperating in good faith to resolve their obligations, SJHS may offer extended payment plans to eligible patients, and will not impose wage garnishments or liens on primary residences. SJH will not send unpaid bills to outside collection agencies and will cease all collection efforts.

The agreed upon plan will be documented in SJH' or physician's billing system including the patient/ guarantor's address and contact information, as well as, agreed upon payment details. Monthly invoices will then be issued for the duration of the plan.

Patient/ guarantor's failure to make the agreed upon payments will result in the account being turned over to the collection agency as outlined above.

COMMUNICATION OF THE AVAILABILITY OF FINANCIAL ASSISTANCE AND OR DISCOUNTS FOR THE SELF PAY PATIENT

Notification about this FAP, discounted care or low income subsidy programs available from SJH shall be disseminated by various means, which may include, but are not limited to, the

publication of its FAP, FAP application, and PLS on SJHS' website, notices in patient bills, and by posting notices in emergency departments, admitting and registration departments, hospital business offices, and patient financial services offices that are located on facility campuses, and at other public places as SJH may elect. Such information shall be provided in the primary languages spoken by the population serviced by SJH, which represent the lesser of 5% of our PSA or 1,000 individuals. Referral of patients for Financial Assistance and /or the offering of a Self Pay Discount may be made by any member of the SJHS staff or medical staff, including physicians, nurses, financial counselors, social workers, case managers, chaplains, and religious sponsors. A request for Financial Assistance and /or a Self Pay discount may be made by the patient or a family member, close friend, or associate of the patient, subject to applicable privacy laws. Approval of Financial Assistance and or a Self Pay discount is subject to the satisfactory compliance with each of the program's requirements as outlined in this document.

REGULATORY REQUIREMENTS

In implementing this Policy, SJH management and facilities shall comply with all other federal, state, and local laws, rules, and regulations that may apply to activities conducted pursuant to this FAP, including all Ryan White provisions.
